FIVE MORE BOYS ENLIST TO JOIN INFANTRY RANKS

All But Robert Lowes Will Leave This Week To Begin Training

Five more boys of the district answered the Empire's call of Tuesday in the enlistment of Allan Harper, Bob Lowe, F. H. Kirkpatrick and Henry Ward, all of Wainwright, and F. F. Mitchell of Edmonton. The boys will leave for Edmonton during the latter part of the week and will take up quarters with the infantry battalions now being raised. They enlisted as a result of the presence in Wainwright of Lieut. Owen, recruiting officer.

The recruiting officer left town on Tuesday afternoon's train after having spent two days here. He is recruiting in Viking today and on Thursday will visit Holden while on Friday and Saturday he will concentrate his energies in the Tofield district. Prior to his departure from Wainwright, Lieut. Owen left information with The Star to the effect that all wishing to join the ranks during the present week could make arrangements to visit him at either of the two before named. Should intending recruits then pass the necessary medical examination, travelling expenses will be refunded to them.

With the departure of the recruiting officer, the district will have contributed to the ranks more than fifty men, many of whom have made sacrifices in order that they may serve the Empire in its present crisis.

Robert Lowes explained to day that he would not leave for Edmonton until he had completed arrangements with the Union Bank, which, it is expected, will grant him leave of absence.

CRAMPTON IS CORPORAL

Corporal Thomas Crampton, such is sufficient to tell of the promotion of one of Wainwright's men who left but recently to join the Alberta Mounted Rifles.

Tom was formerly a corporal in the 18th Saskatchewan Light Horse of which he was a member for three years. He sat in examination in Edmonton last week and on Thursday notification of his promotion was given out.

All the boys who left this district to join the ranks in Edmonton are doing well and satisfaction is being expressed by them at the treatment they are receiving.

John J. McCann, B.A., graduate of the National University, Ireland, has arrived in Wainwright to take up the position of student at law in the office of H. Hunter, barrister and solicitor.

ENGLAND'S FIRST NAVAL LORD SMILES DESPITE TROUBLES

First Lord of the British Admiralty, Winston Spencer Churchill, and his wife out for a walk. Notice that the First Lord and wife are smiling, in spite of the many problems in connection with the British Navy in these troublesome times. The first Lord is half an American for his mother was a Boston Society Belle before marrying Sir Randolph Churchill.

Local Improvement District Makes Big Patriotic Donation

Check for \$150 Representing Offering From People of L.I.D. Sent to Secretary-Treasurer Munro—Amount Paid From Council's Treasury

Funds of the local branch of the Canadian Patriotic Society were donated to the local improvement district by the latter body, on Tuesday evening.

The check represented the generous offering of people situated within the local improvement district and was authorized at a meeting of the council held shortly after the

organization of the Canadian Patriotic Society at which it was decided to pay the amount out of the council's funds.

Although this procedure was not altogether in accordance with the laws governing the funds of local improvement districts, Sec.-Treas. Hansen communicated with Hon. Wilfred Garfield, minister of municipalities for the province, and consent was given for the payment of the amount from the council's treasury.

MOUNTED BRIGADES WILL BE TRANSPORTED TO EGYPT. WAINWRIGHT MEN INCLUDED

(Special Dispatch to the Star.)

Ottawa, Jan. 27.—It was announced to day that the Canadians now stationed at Salisbury Plains would be removed within the next few days to France and that the 2nd contingent now in Canada would be transported to England. With them will go the mounted brigades (which include several Wainwright men). The latter however will be transported for service in Egypt.

Cairo, Egypt, Jan. 27.—It is reported that three Turkish army corps comprising 12,000 men are marching on Egypt and that engagements have taken place east of Elotat, 25 miles south of Port Said. The fighting is said to be in the nature of skirmishes. One British officer and 4 men are reported wounded. What losses have been suffered by the enemy is has not yet been given in late dispatches.

EDGERTON NEWS

The Fratres cup was won by Mr. Peter Milne's rink after an exciting series of keenly contested games. The winning rink was composed of the following players:—P. Milne, skip, B. Stratton, J. Halverson and C. Walrath.

A number of farmers and townpeople of this district have contributed several bags of wheat each for the Belgians.

A patriotic concert is to be held in the Milne Hall about the middle of February and already a number of people are working to provide a good program. A short lunch will be served and a dance will conclude the evening's entertainment.

The following I.O.O.F. officers were installed on Thursday evening, P.G., V.G., Pawsby; N.G., A.C. Pike; V.G., J. Carr; Treas., J. Watson; Secretary, C. Baugrove.

BATTLE RIVER DELEGATES ARE IN EDMONTON

Representatives of the Battle River Conservatives at Convention Local Meeting

The convention of the Liberal Conservatives of the federal riding of Battle River for the election of officers and for the nomination of a candidate was opened this afternoon in the Albion Hall, Edmonton.

The conference originally had been arranged to be held in Wainwright but the distance to be driven in this severe weather were found to be no great that all the provincial ridings included within it could not be expected to send an equal and fair representation of delegates. Accordingly the conservatives of the Wainwright local riding and of the other ridings which would be less discommoded by coming to Wainwright, agreed to further the convenience of the more distant ridings by journeying to Edmonton.

Those in attendance from the Wainwright district include George L. Hudson, M.P.P., Frank Mott, Sam Lewthwaite, Dr. Middlemas and G. L. Morrow of Edmonton.

TESTIMONIAL UNSOLICITED

There are some people who do not pay. Here is what J. W. Brown says in reference to a classified ad: "I advertised a cart for sale and sold it after two insertions." In regard to a display advertisement concerning the G. H. Bowerman meat market, Mr. Brown said: "I received, as a result, three new customers one hour after the Star had been delivered to the homes of its readers."

WORKERS FOR REFORM FEEL CERTAIN VOTE WILL CARRY

Rev. S. A. Wallace Returns From Edmonton and Tells Of Convention

Returning from the Alberta Temperance and Moral Reform convention conducted in Edmonton last week, Rev. S. A. Wallace, pastor of the Presbyterian church, said the conference was one of the greatest of its kind ever held in Western Canada and that from the general feeling existing, all in attendance felt sure that this year would see the inauguration of prohibitory laws within the province of Alberta.

"The campaign for province-wide prohibition will be carried out strong and strenuously along strictly political lines," said Mr. Wallace. "The estimate of \$25,000 which has been passed will be used for the prosecution of the campaign and every cent of it will be spent to make Alberta 'dry'."

The second of the series of sermons on "Great Women of the Bible" will be given by Rev. C. R. Corcoran on Sunday evening next in the Grace Methodist church. On Sunday evening last, Rev. Mr. Corcoran dealt with the life of "Eve".

Meat Dealers Expect Increases In Prices In Next Few Months

Scarcity of Beef, Pork and Poultry Prevails—Especially In Regard To No. 1 Quality—Markets Also In Need Of Fresh Eggs and More Poultry

According to present predictions there is every reason to believe that the prices of meats will be greatly increased during the coming spring.

A canvass of local meat markets this morning elicited information in regard to the scarcity of beef, pork and poultry. "Pork is very scarce and the present supply of beef" said one local butcher this morning. Continuing he said: "I am of the opinion that the coming of spring will see pork increased in cost about \$2 per hundred pounds. Beef will also increase at about the same rate," he concluded.

In regard to the price of eggs one dealer questioned this morning whether or not the hens were doing their duty. "I don't believe they are," he affirmed and then went on to speak of a remedy. This dealer said he had been doing all he could to persuade his hens to lay. He had even gone so far as to introduce to them the photograph and had actually passed the preliminary stage of

teaching them to dance.

"I believe in making hens dance," he said. There is nothing like exercise for them these cold days. After awhile I'll have them doing the tango and I am sure that by the time they reach this stage, their egg laying proclivities will have been revived." All who know this dealer in eggs are wishing him the best of luck and an early reduction in the price of chicken fruit is looked forward to.

SON OF WM. HAIR SUFFOCATES IN BED AS RESULT OF FIT

Youth Had Been Subject To Ailment For Considerable Time

Seventeen year old Frederick Arthur Hair, son of William Hair, residing about six miles north of Wainwright, was found dead in bed early on Sunday morning having succumbed as the result of a fit to which he had been subject for several years.

From the position in which the body was found it is concluded that the boy had a fit, rolled on his face in bed and died as a result of suffocation. Deceased had been under the care of Dr. Middlemas for some time but his death came as no surprise to those who knew him.

The funeral was conducted from the home on Tuesday afternoon and interment took place at the Wainwright cemetery.

JAMES SPEAKMAN IS WELL SEASONED AGRICULTURIST

New President of U.F.A. Has Taken Active Part In Provincial Affairs

James Speakman of Penhold, who was appointed president of the United Farmers of Alberta at the convention conducted in Edmonton last week, is one of the oldest and best known agriculturists in the province. Having first seen the light in the great English industrial centre of Manchester, Mr. Speakman is an Englishman by birth. He was educated at Kiel, near the present hiding place of the German fleet.

Almost since the formation of the organization, Mr. Speakman has taken an active part in the deliberations of the United Farmers of Alberta. He was a member of the executive during 1912 and 13, and last year was elevated to the position of second vice president. Long before that, however, he had taken an interest in the welfare of those engaged in the agricultural industry.

WINNIPEG GRAIN

Winnipeg, January 20.—Closing prices: wheat, Jan. 140; May 144; July 145; Oats May 65; July 66; Cash wheat, No. 1 Nor. 140; No. 2 138; 3, 136; 4, 134; 5, 132; 6, 124; feed 120; Oats, No. 2 C.W. 63; No. 3 C.W. 61; No. 1 feed 61.

AMALGAMATION DISCUSSED BY LOCAL SOCIETY

Agricultural Directors Consider Proposal Good One Delegates Chosen

The advisability of the amalgamation of agricultural societies of the districts surrounding Wainwright was discussed at a directors meeting of the Wainwright Agricultural Society held here on Saturday afternoon of last week. The matter was one that resulted in an animated discussion among all present and it was finally decided that the proposal would be a good one and would meet with the favor of all concerned. It was thought at the meeting that in the unity of the various associations Wainwright should be made the central location.

At this same meeting, delegates were appointed in the persons of Archibald McLean and D. W. Hansen; to attend the agricultural convention in Edmonton within the next few weeks. These delegates will speak in favor of amalgamation at the convention. The question of open or local exhibits was also discussed at the meeting. This will also be a matter that will be brought up in convention. In this regard the delegates were advised by the board to speak in favor of open exhibits.

DOMESTIC SCIENCE IN PUBLIC SCHOOLS BRINGING RESULTS

Domestic Science courses which were inaugurated recently in the public schools, are already beginning to prove of benefit to the pupils in attendance.

On Saturday afternoon of this week, pupils under the supervision of Miss Bromer will begin to make their own fancy dresses for the musical play, "Robin Hood and Maid Marion" which will be produced in the Elito theatre sometime in the near future.

The designs for the costumes have been selected with care and comprise those appropriate for shepherdesses, gladiators, milkmaids, witches and other historical characters. When the costumes are completed and the cast presented, Wainwright will be given one of the most picturesque scenes ever produced by children in the west.

Divine services will be conducted in the Public Hall at Heath on Sunday next, by Rev. H. Assiter. Holy Communion will also be administered, to which members of other Christian churches, who are unable to communicate in their own church, are cordially invited.

A further \$40 was noted for the Canadian Patriotic fund as a result of a patriotic concert given in the Gilles schoolhouse on Friday evening of last week. An excellent program was given while an address of an appropriate character was also delivered by George L. Hudson, M.P.P.

A resident has lost a persian lamb stole with ermine trimmings. Finder should return to STAR office.

Ticket No. 36 won the prize in the raffle recently conducted by Jack Milliken.

The Right Way to Strike a Match

Once in a while we have complaints about our matches breaking in two. This is no fault of the match as EDDY'S MATCHES are made from specially selected straight grained wood only. For the benefit of those who are in ignorance as to the proper way to hold a match (and there are many) we give the following directions:

The forefinger of the right hand should be placed over the tip of the match, and withdrawn quickly when the flame comes. This prevents any undue leverage on the match and insures that the match will burn evenly and brightly.

THE E. B. EDDY CO., LIMITED, Hull, Canada.

BRANCH OF ANGLO-SAXON BROTHERHOOD IS LOOKING TO UNITED STATES

ALL THE ETHICS of modern warfare have been violated by Germany. They have been violated time and time again and in the aerial raid of last week on the east coast of England, Germany added a further link to her chain of crimes that, in themselves, constitute deliberate murder for non-combatants, in unfortified towns, were barbarously killed. And the unfortunate victims were defenceless men, women and little children.

Raiding these English towns and ruthlessly killing boys, girls and women, classes itself with Germany's acts perpetrated on little Belgium. More and more the world is being enlightened as to how Germany looks upon those rules laid down at the Hague convention and, more and more, the people of the world are seeing Germany turn back the pages of civilization leaf after leaf and content herself with living in a past age of barbarity. All self respect is being banished by this nation of Germans which formerly classed itself as a nation of cultured humans.

But the United States too, was a co-signatory to the Hague conventions. What has she to say about these murders of non-combatants, and, as the Calgary Herald asks, "Does neutrality go so far as to prevent even a protest against these crimes, while permitting a protest in defence of United States commerce?"

"Surely the duty of the United States goes far further than has yet been undertaken by it. Surely that great nation, neutral though it might be, will not consent to stand before the world as refusing to protest, and, if necessary, to enforce its protest against crimes on humanity whose equals have never been perpetrated by any civilized nation. Surely the voices of the greatest thinkers and writers in the republic urging it to action will not much longer be disregarded by its statesman."

"The British government does not ask for itself the sympathy or support of any neutral nation, but the British Empire, as representing the other branch of the great Anglo-Saxon brotherhood, is looking anxiously to see from the United States some concrete vindications of those principles of civilization for which that brotherhood stands."

NOTES AND COMMENT

Tom Crampton's promotion to the rank of corporal comes as no surprise to those who knew him. In a letter to his brother Tom says he is not to be satisfied until they make him a general.

"The Baby Killers" is the latest appellation given to that nation of "cultured" Germans. And it is not to be wondered at after the latest raid on the English east coast when babes and women fell victims to those of no self respect.

Time and time again, persons have addressed communications to The Star calling attention to the necessity of a young men's club in Wainwright. Many have suggested that steps be taken at the earliest opportunity for the formation of such an organization and for the possession of suitable quarters. The suggestion is a commendable one as the existence of a young men's club would prove, that is, providing it was conducted and supervised along right lines. Strict and careful supervision would be essential. Such is essential for the well being of any club and would prove especially so in the case of the organization proposed.

It was evident at the meeting of the town council on Tuesday evening of last week, that Matthew Greer did not suggest that an effort be made to dispose of the skating rink owing to the thought that the structure was the town's "white elephant". He was fully cognizant of the fact that the rink this year has proved one of the town's best assets. The thought uppermost in the mind of Mr. Greer was that if the rink should be taken over by the government—the prospects of which are poor—Wainwright could easily erect another rink while the establishment of a garrison here would do much toward the further development of the town.

The English economist, Hirst, declares that, as a student of economics and finance, he can hardly believe that the war will survive the winter. As the "Prairie Farm and Home" says, everyone will hope that his judgement is sound, though many of us will remember our misplaced faith in the economists who said that war was such as this was an utter impossibility.

In spite of the ever increasing price of flour, there is one Wainwright baker who is willing to make a sacrifice during these times of war. He says he will not increase the price of bread. He is certainly a man deserving encouragement.

"These are the days when the people should stand together, and the less there is of that unity the worse for the city and the worse for the people. The man who is staying by his guns, facing the foe which comes in the way of depression, and keeps the flag flying, instead of retreating at the first signs of alarm, must be encouraged. He is the kind of man we want." The foregoing is what the Calgary Albertan has to say in reference to the man who advertises. This man should be encouraged by all buyers at all times.

That Berlin is now expecting the war to be a long one is evidenced by the fact that the German government has under consideration at the present time the matter of using the forests for the growing of grain. Germans must now realize the Berlin-Paris idea to have been all a dream.

England's now rejoices over the most recent naval engagement which was a real fight. Berlin was rejoicing just a few days ago over the aerial raid which was so successful as to lay low ten non-combatants. The glories of the two achievements certainly provide a contrast.

THE BURNING QUESTION

Now is the time of the year when you ask yourself the burning question "What coal is going to give me perfect satisfaction by its long lasting qualities, its freedom from Gas and clinkers, and its intense heat?" We have the answer. It's the famous

HUMBERSTONE COAL \$4.75
On the car

AND "THE COME-BACK-AGAIN"
PEMBINA STOVE COAL \$4.50
on the car per ton

We also have a coal which everybody is talking about for its combination of good quality and cheapness. It is a

LARGE LUMP COAL \$2.75
on the car per ton

We give you full weight to the last pound, we send a weigh slip with every load and
WE SEND YOU THE COAL YOU BUY.

D. W. Hansen, Sec. Treas.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at the office of any Agent of Dominion Lands, but subject to certain conditions.

Within six months residence upon and cultivation of the land in each of three years after earning homestead patent; the 80-acre cultural land condition is required in every case when residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3 per acre. Duration six months residence in each of three years after earning homestead patent; the 80-acre cultural land condition is required in every case when residence is performed in the vicinity.

A settler who has exhausted his homestead right and cannot obtain a pre-emption may take a ranchman's homestead in certain districts. Price \$10 per acre. Duration six months residence in each of three years after earning homestead patent; the 80-acre cultural land condition is required in every case when residence is performed in the vicinity.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Livestock may be substituted for cultivation under certain conditions.

W. W. CORY C.M.G.
Deputy Minister of the Interior.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta and the Yukon Territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 a acre. Not more than 250 acres will be let to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be surveyed by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked by top applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year.

This lease will include the coal mining right only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion.

W. W. CORY,
Deputy Minister of Interior

IMPORTANT EVENTS FROM WAR ZONE

The most important event of the past week so far as war news is concerned was the Dreadnought battle in the north sea in which the German armored cruiser Blucher was sunk, while two German battle cruisers were badly damaged.

This occurred on Sunday last when an attempt was made by a German cruiser squadron to repeat the attack recently made on Scarborough, Hartlepool and other British coast towns. The British ships which took part suffered only slight injury. So far as is known, only 123 of the Blucher's crew of 885 were saved. The event caused much enthusiasm in London.

In the western arena of war, the activity of the past few days has been confined chiefly to artillery engagements which have been almost continuous from the sea to the Swiss frontier. All arms, however, are engaged in the Argonne, where trenches have been lost and retaken several times within the past few days. In Alsace both sides are putting forth vast efforts.

OPEN WEDNESDAYS AND SATURDAYS OPEN

RUSSIAN MILITARY BANDS

One feature of the Russian army
which from time to time has been
brought to the attention of the press,
is the unusual size and number of
bands in the military forces of the
Czar. The Russian soldier has more
musical notes than any other soldier
in the world.

There is no regiment in the Russian
service without its own band, and at
posts where not a regiment, but only
a battalion, is quartered, that bat-
talion has its band. And these Russian
military bands are big and impressive
musical organizations. Within each
is a brass band and an orchestra of
string and wood instruments, with, of
course, the necessary touch of brass
and sheepskin. The result is that
while these military bands play pri-
marily military music, they also adapt
themselves to the performance of
such music as we hear at a sym-
phony concert.

The average Russian army band, or
orchestra, has from forty to fifty
musicians, and the orchestra of cer-
tain guard regiments contain sixty.
There are more than 1,000 Russian
regiments, and there are in the army
about 50,000 bandmen. Then in the
naval and military schools and in the
navy there are bands, and if to these
are added the twenty to forty musical
pupils of a regimental orchestral
school and the musical companies of
battalions, the number of military musicians,
the number of military musicians to
the armed service of Russia amounts to
the surprising total of, approximately,
100,000 men.

THE NIGHT HAWK
—Harding, in The Brooklyn Eagle

A HUMAN CANCER

Lloyd George's Scathing Caricature in
Dealing With Turkish Empire

Addressing a great audience at the
City Temple, London, Mr. Lloyd
George thus spoke of Turkey: "We
have been assailed by another nation,
opponent of the higher culture."
"Key. (Laughter.) I notice the same
characteristics, the same contempt
for the elements, for the elements of
international war. We did our best
to avoid a quarrel. No one could
have shown more patience in the face
of insults and injuries than I could
detail to you by the hour. This Great
Britain did in the face of the treat-
ment which was accorded to us by
this miserable, wretched contemptible
Empire on the Bosphorus. (Cheers.)
But the quarrel has been taken out of
our hands. We were in the hands of
fate, and the hour has struck on the
great clock of destiny for settling ac-
counts with the Turk. The Turk is the
greatest enemy of his own faith
because he has discarded it by mis-
government. What have the Turks
contributed either to culture, to art,
or to any aspect of human progress
that you can think of? They are a
human cancer (cheers), a creeping
agony in the flesh of the lands which
they misgoverned, and rotting every
fiber of life. And now that the great
day of reckoning has come upon the
nation I am glad. (Cheers.) I am
glad that the Turk is to be called to
final account for his long record of
infamy against humanity in this sig-
nificant battle between right and wrong.
It is most that the Turk should march
into action shoulder to shoulder with
the devastators of Belgium. They
have made themselves fit comrades.
The ravagers of Armenia, and the
devastators of Flanders. The Turk of
the East, and the Turk of the West,
both ruthless military empires with
only one god, and that is violence.
Their downfall will bring gladness,
security, and peace to a world which
for generations has been oppressed
and darkened by their grim presence.

ONE LIFE FOR MANY

Sailor on Mine Sweeper Sacrificed
Himself to Save His Shipmates

During a gale that swept the North
Sea, one of the travelers engaged in
mine-sweeping was seen to be in
difficulty. One of the seamen, James
Paton, was astride the gale at the
moment when a great wave caught
the vessel, sweeping everything off
the deck and carrying away the main-
mast.

After this there was only one chance
for those on board, and that was, of
course, to cut everything clear. But
James Paton was clinging, entangled,
to the broken spar, and his mates saw
that if they cut the tangle away poor
Paton must go with it.

They hesitated. But not so James
Paton. Seeing that the sacrifice of
one might save many, he gave the
signal himself, saying: "Chop away,
mates!" and "Good-bye, ladies!" And
thus perished the noble hero on the
roll of British fame.

BESOM AND STANE

With the defeat of Forsythe
on Monday evening by
score of 14-3, H. O. Mann's rink
carried off the trophy donated
for competition by the Calgary
brewing Company. The com-
petition throughout was
coupled with much enthusiasm.

The team which journeyed to
Edmonton on Monday composed
of Hudson, Cousins, Logan and
Bill Brown succeeding in
winning the trophy in Edger-
ton. Edger-ton, in turn, has now
challenged the Wainwright rink
and will make an attempt to
return the trophy to Edger-ton
in a game to be played at the
Wainwright rink to day. The
score on Monday was 10-7.

It is expected that two teams
from Viking will be in Wain-
wright on Saturday of this week
when exhibition games will be
played. The standing of the
local rinks to date is as follows:
Munn, won 6, lost 2; Cousins,
won 5, lost 3; Washburn, won 4,
lost 3; Hudson, won 4, lost 3;
Forsythe, won 4, lost 3; Fergu-
son, won 4, lost 3; Ross, won 3,
lost 4; Gerow, won 3, lost 4;
Crampton, won 0, lost 7.

Three games have yet to be
played one between the rinks
of Washburn and Hudson, one
between Forsythe and Crampton
and the other with
Ross and Gerow as the con-
tenders. The results of these
games will not affect the
brewing company cup.

Rinks were chosen at a
meeting of the Curling Club
held on Tuesday afternoon for
the elimination contest for the
trophy that has been given for
competition by G. L. Hudson,
M.P.P. The contest will last
for three days. Following are
the rinks.

PRODUCING RECORDS BROKEN

All former records in Canada
for milk production have been
broken and a new world's record
established by a Holstein cow,
owned by the B. C. government
at the Asylum farm at Esso-
dale. In a period of 68 days the
cow has produced 9,376 pounds
of milk and 107 pounds of butter.
She is named Zarilda Clothilde
III, Dexol and is a four year old
pure bred Holstein.

EXPRESSIONS ARE INVITED

Expressions of opinion on
various matters pertaining to
the welfare of the town and
district are invited by the Star
from resident of the community.
A column will be opened in this
paper that will be free to any
one who may care to contribute.
All articles, which must be
sent to the editor not later than
Monday of each week. Names
and addresses must also be at-
tached.

NEUTRALITY MEANS

Not at War Must Follow De-
finite Course of Action

The main principle of the doctrine
of neutrality is that while other
nations are at war, those which are
at peace are able, without molesta-
tion to pursue their ordinary busi-
ness. Neutral countries, however,
must show absolute impartiality in
their dealings with the combatants,
while the latter must, on their part,
respect the neutral position of coun-
tries at peace. Germany's great
crime is that she, in defiance of all
international law, ignored the neu-
trality of Belgium, because that country
stood in the way of swift invasion
of France.

A neutral State is not permitted to
give armed assistance to either bel-
ligerent, even though such aid may
have been promised before the war.
Neither must she lend money to
either side, guarantee a loan, or allow
the passage of belligerent troops
through her territory. The reason
why thousands of British Naval
Brigades and Belgian troops are in-
terned in Holland is because a neutral
State is bound to intern and disarm
any troops which attempt to trav-
el through her country. Should a neutral
State not observe this law and assist
any belligerent force which may be driven
into her country, the enemy is en-
titled to treat such a deviation as a
just cause for war.

On the other hand a belligerent is
not permitted to carry on hostilities
in neutral territory, nor use neutral
harbors for the purpose of fitting out
expeditions against his enemy.
The ships of neutral nations are en-
titled to go about their business in
the usual way, provided they are not
carrying contraband of war, but they
are liable to be searched by belliger-
ent ships. Belligerent ships may not
be fitted out in neutral waters, but if
they are driven by force of circum-
stances into a neutral harbor they may
be supplied with sufficient coal to en-
able them to proceed on their voyage.
They must, however, leave a neutral
port within twenty-four hours, or be
interned "for the rest of the war—"
this is to say, the neutral authorities
must see that the ship is dismantled
until the end of the war.

The term contraband applies to
articles which may be regarded as
likely to help belligerents to prolong
this war, and the transportation of
such articles by neutral ships is pro-
hibited by international law. The list
of articles includes arms of all kinds,
explosives, military clothing and
equipment, boats and in certain cir-
cumstances foodstuffs, fuel, field
apparatus, horse equipment, and all
kinds of nautical instruments.

WIRE ENTANGLEMENTS

Impassable Barrier For Either Char-
ging Cavalry or Infantry

The demands of modern warfare
are novel and varied, and at times
the exigencies of the situation im-
pose a supreme tax upon ingenuity.
It was the South African war which
brought home to military minds for
the first time the enormous impor-
tance of barbed wire entanglements.
The Boers protected their defences
in an elaborate manner with wires
running tortuously and diagonally,
and, in order to complete their work,
held tightly in place by being strained
upon posts. When infantry or cavalry
attempted to reach a position so pro-
tected, the men and horses caught in
the wicked network, floundered and
fell. In the case of cavalry the horses
lacerated and stung the maddened
animals to a state bordering on frenzy.
They kicked so frantically that the
whole mass of mounted men were
flung into confusion, rendering it an
easy matter for the defenders to pick
off their assailants by rifle fire. The
advance of infantry was possible only
after the wires had been cut away,
for which it was necessary to equip
the men with "snippers." Even then,
owing to the delay which arose in
clearing away the obstruction, con-
siderable havoc was wrought in the
ranks of the assailants.

The German hosts were first
brought into contact with the barbed
wire method of defence in their at-
tack of Liege. The dense masses
of advancing infantry became trapped
in this fearful net, and machine guns,
commanding the entangled position,
mowed down the attackers like hay.
It is reported that the formidable
character of the Liege entanglements
was enhanced by converting them
into a huge electrifying net.

Another useful purpose which wire
has fulfilled is in connection with the
protection of entrenched infantry
from shell fire. The wire has been
suffered especially in this connection
owing to the deadliness of the French
artillery. This has been due to the
accuracy of the deadly timing of the
fuse and the bursting efficiency of the
explosive charge. Several ingenious
artificers were contrived to mitigate
the effect of flying fragments of burst-
ing shells. Among these was the dis-
tribution of coils of wire in the vicinity
of the trenches. These coils appear
to act somewhat as a buffer, the spray-
ing effect of the shrapnel being ap-
preciably lessened.

Newfoundlanders Urged to Enlist
"I would urge every Newfound-
lander here to join some regiment
and get in shape for service, either
at home or abroad." Applauding
of this statement, made by Mr. B. W.
Mudge at the annual meeting of the
Newfoundland Society of Montreal.

Lord Curzon said the Kaiser's name
would go down to history as "William
the Blood-stained" and "William the
Assassin."

Under the auspices of the
Ladies Aid, "The Minister's
Bride," a comedy in four acts,
will be given in the Irma hall
on Friday evening, January 29,
beginning at 8 o'clock. The
proceeds will be given in aid
of the Belgian Relief Fund.

FRESH FISH - LARD - POULTRY	

ALL MEATS GUARANTEED

LOCAL CADETS RECEIVE RIFLES

Rifles numbering 20 in all have been received by the Wainwright Cadets to replace those which were recalled by the government shortly after the declaration of war. The rifles were sent here by Major Oulhit of Calgary, chief organizer for the cadets in Alberta. The new rifles were used in drill on Friday last when Lieut. Arthur King drilled the cadets and Lieut. Walter King led the new members through squad drill. It is expected that the local company will have reached a strength of forty members by mid summer.

GLEANNED FROM CHATTER AT RINK

Although Scott defeated Wainwright on Wednesday evening of last week by the overwhelming score of 9 goals to one, Wainwright resps a little satisfaction from the knowledge that the team taken down was not the best the boys could produce. The score, too, is also said to be no criterion of the play. But this much is certain—Scott will not come to Wainwright this year and again leave conquering heroes. The medicine is going to be reversed.

The following is clipped from the Scott Herald. It will cause more than one to smile:

"The composition of the Wainwright team which played against Scott on Wednesday evening was as follows: S. Livingstone, W. G. Livingstone, C. Brinker, Wainwright; L. Larrabee, Edmonton; P. Grier, Moose Jaw and J. E. Davey, Saskatoon. It is rumored that Frank Patterson of Vancouver was expected, but could not make the grade in time.

Never before in the history of Wainwright has the rink so justified its existence as this year. It has become the concentration point of both old and young. Some there are who still throw criticisms towards the big building but what would the townspeople have done without the structure this season?

Nothing presents itself to prevent a hockey game between two local teams. There is lots of material in town and a game of this kind, arranged to take place in the evening would be sure to attract a large crowd. There is no time like the present to effect the arrangements and the receipts from the game after deducting expenses could be placed in the treasury of the local hockey club which is not in a very healthy condition at the present time. Similar games, had they been arranged earlier in the season, would have brought money with which suits for the senior team could have been purchased.

Many are making prepara-

AT THE ELITE

Next installment of LUCILLE LOVE Series to be shown Tuesday, February 2

Lucille is humiliated in the eyes of her lover and returns to the hotel crest fallen. However, fortune favors her and Loubeque is again outwitted in his attempt to deliver the documents to: Lieut. Halley. The latter arranges to make an appointment with Loubeque by means of the service of a carrier pigeon which fortunately alights at Lucille's window. She takes the bird and begins fondling it and discovers Hadley's note. She writes a misleading misale and again liberates the bird which flies to the spy's room with the counterfeited message.

Here Thompson attempts to avenge himself upon the international spy and enters his room with intent to kill. But the spy is too quick for him. He disarms the butler and calls for the police. But Loubeque hesitates in having Thompson arrested. Thus Thompson awaits his chance and attempts to kill Loubeque, who is again too quick and who kills Thompson and drags his body into Lucille's room.

Meanwhile, the girl has entered Loubeque's quarters and begins to search for the papers. The police enter and arrest her as a thief. She is taken to the cells and then Loubeque does a strange thing for instead of having her stay in jail, he tells the police she has been arrested in error. Thus Lucille comes to understand him less every day. She has done everything in her power to defeat him yet he is instrumental in having her released from prison.

tions for the fancy dress carnival to be held at the rink on February 3rd, and the event gives promise to culminate in a big success.

A conflict on skates between the married and single men of the town would also be sure to attract a great deal of attention while a hockey match with the ladies as contestants, would bring out boundless enthusiasm. Who is there in town that would engineer such games?

House furnishing

Kitchen, Dining room, parlor and bed room furniture--carpet rugs, linoleums--musical instruments and sheet music, Edison phonographs and records sewing machines.
